THE VAKTOVIAN EMPIRE

ARMY CORPS PROGRESSION INFORMATION

Bearing the Seal of The Legate Council

| OVERVIEW

The purpose of this document is to explain how progression works within the Vaktovian Army Corps to ensure every cadet understands how progression works to advance to the next level of their careers.

| PROGRESSION TRACKING

Progression within the Vaktovian Army Corps is handled by a Discord progression tracking system in which one is able to view the progress of an individual by running one of the two commands:

- **v!profile [username]**
- **v!progress [username]**

The username field is optional which can be used to view the progress of another individual, where omitting this field will select the command user's profile instead, which they must be verified in order to do so. One will need to first have earned progress in order to have their profile created and viewable.

Progress is kept mostly hidden to cadets to ensure that cadets are attending their Level training of all types regardless of whether they have completed the topic in the curriculum or not. One can still view the percentage of their completed hidden requirements through the progression report of the profile in order to see a small form of visibility of their progression.

| REQUIREMENTS

NOTE THAT MEETING ALL REQUIREMENTS DOES NOT GUARANTEE ADVANCEMENT

Progress on hidden requirements can be obtained by attending the level training for your level. Progress must be obtained while serving at that level in order to advance to the next.

■ LEVEL ONE

In order to progress from Level 1 to Level 2 a cadet must meet the following requirements:

- 12 Level One trainings attended
- All hidden requirements complete
- VAC as their primary group (tracked internally)
- A clean record from any recent punishments (tracked internally)
- Ranked at Level 1 for at least 1 week (tracked internally)

■ LEVEL TWO

In order to progress from Level 2 to Level 3 a cadet must meet the following requirements:

- 7 Level Two trainings attended
- All public requirements complete
    - 5:30 at the Assessment Chamber
    - 1,000 kills at the Sparring Arena or Warforge
    - Tier 4 at Custom Duels
    - Completion of the Level Two Obstacle Course
- All hidden requirements complete
- VAC as their primary group (tracked internally)
- A clean record from any recent punishments (tracked internally)
- Ranked at Level 2 for at least 3 weeks (tracked internally)

Important: The 1,000 kills requirement requires a screenshot showing the date and time of your computer and your current kills before starting to track your kills and afterwards as well.

For more information please view the Level Two Introductory Document

■ LEVEL THREE

Level 3 requirements are kept private for Level 3 cadets only.

| FREQUENTLY ASKED QUESTIONS

I have 100% requirement completion but have not advanced. What gives?

Progression within the Army Corps is slightly more complex than what we reveal to cadets. In order to advance, the staff within your level must vote on the belief that you are holding Vaktovian values true to yourself and putting into practice what you have learned. In short, they must believe that you are truly ready to advance to the next level.

It is important to realize that decisions on advancement are made only on the individual themselves and not in comparison to other cadets. No one is 'more favored' to advance over another and there is not a limit to how many can advance at once.

Why am I not able to view my progress?

In order to view your progress report, you must first attend a level training and earn progress. A profile will automatically be created once progress is earned and will carry forward throughout your VAC career.

Glory to Vaktovia.
